

Queensland cattle tick management survey

Thank you for taking the time to complete the Queensland cattle tick line survey.

There are 13 questions in the survey and it will take approximately 5–10 minutes to complete. The questions are a combination of multiple choice and short answer.

Privacy information

The Queensland Government is bound by the *Information Privacy Act 2009*. The information you provide on this form will only be used for the purpose of informing the State Government's final position on cattle tick management. We will not share your name or contact details with anyone without your consent. This consultation is a public process and any comments you provide may be published and/or online and may be transmitted outside of Australia. You may wish to bear this in mind when providing your comments.

You are not obliged to provide comments and if you do so it is under the condition that you agree that your comments may be published including on the internet. We will not publish your name or contact details.

Your comments may be moderated according to our acceptable use policy (www.qld.gov.au/legal/acceptable-use). Read our privacy statement (www.qld.gov.au/legal/privacy) for details.

Information about you

1. What is your Property Identification Code (PIC)?

- Individual
- Organisation (please specify)
-

3. Which category best describes your involvement in the livestock industry?

- Grazing property owner
- Feedlot business
- Abattoir business
- Livestock transport business
- Veterinarian
- Other (please specify)
-

4. Which livestock do you currently work with?

- Cattle
- Sheep
- Horses
- Goats
- Other (please specify)
-

Cattle tick line buffer

5. Do you support the tick line being positioned to provide the greatest possibility of security and sustainability for the free zone?

Yes No

6. Where practicable should the tick line be buffered by a double fence boundary?

Yes No

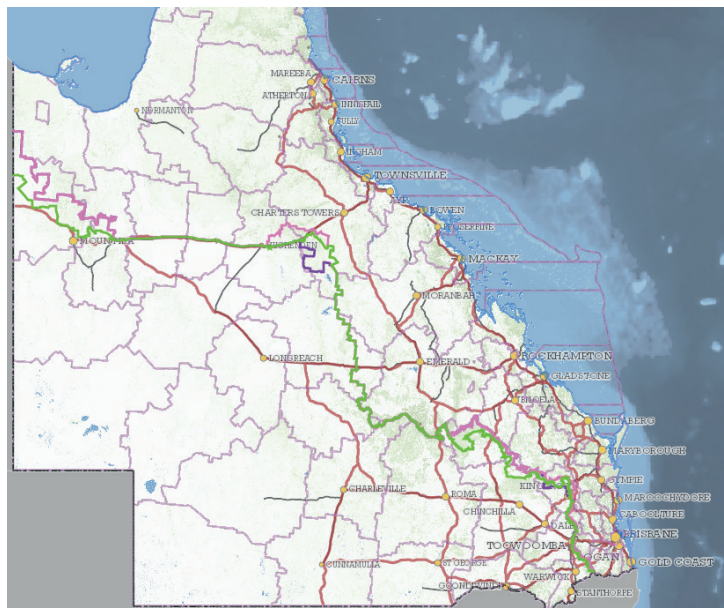

7. Which of the following would form a suitable buffer between the infested and free zone?

- Roads
- Railway line
- Dams or lakes
- River
- Other (please specify)

8. Where roads are used as a buffer, which type of road would be appropriate?

- Major highway
- Significant high traffic major road
- Any double fenced road
- Other (please specify)

Location of the cattle tick line

Cattle tick line options map

See map (left) showing three options for the location of the cattle tick line to answer the following questions.

Option 1 – Green

Option 2 – Pink

Option 3 – Purple

The online map can be viewed here:

<http://www.arcgis.com/home/webmap/viewer.html?webmap=6af36b4047ba49228cdfc9d059401b9e&extent=134.0872,-29.3486,161.0037,-11.2914>

9. How strongly do you support **Option 1**? The current free zone should become the new free zone.

Strongly disagree Disagree Unsure Agree Strongly agree

10. How strongly do you support **Option 2**? The current free zone and control zone should become the new free zone.

Strongly disagree Disagree Unsure Agree Strongly agree

11. How strongly do you support **Option 3**? The free zone should be created by aligning the tick line using major double fenced roads to create a buffer where practicable. The line for Option 3 on the map is an example only. This option would allow the line to be moved to the most sustainable location. If you prefer this option please provide any details specific to your property and where you feel the line should be located in the following question.

Strongly disagree Disagree Unsure Agree Strongly agree

12. If you support the concept of Option 3 but believe there is a better alternative position that could be used, please provide details of your preferred location?

13. Do you have any further comments you would like to include?

No
 Yes (please specify)

Thank you

Thank you for completing Queensland's cattle tick management survey.

Please post your completed survey to:

Cattle tick line consultation
Department of Agriculture and Fisheries
GPO Box 46
Brisbane QLD 4001

Your feedback will be used to inform the development of a regulatory framework for cattle tick management in Queensland. The new framework will be introduced on 1 July 2016 with the introduction of the *Biosecurity Act 2014*.

For further enquiries please contact Biosecurity Queensland on 13 25 23.
