

**North East Downs Landcare Group Inc.**

***Our land, our future***

**AN INTRODUCTION TO  
PEST APPS @ QUINALOW HALL**

**Tuesday June 13<sup>th</sup> 2017**

**10am- 2pm**

Technology has grown rapidly in Australia, particularly mobile devices. Mobile applications can help decision makers manage natural resources in innovative ways, particularly accessing government services and data.

We'll focus on those applications that are available on at least two or more platforms (Android / iOS), take advantage of Global Positioning (GPS) technology, mostly free, and suitable for Southern Queensland.

**LEARN ABOUT:**

Handy apps for natural resource management:

- Feral Scan (pigs) Wildlife, feral and plant species location, including field guides
- How to use your device as a GPS and map viewer
- Apps to support grazing management

This will be a quick introduction to the range and type of apps available. We'll demonstrate some of the apps and software to value add.

- **Please bring your own mobile device (phone/laptop/tablet) if you would like to try the apps.**

**In addition to this**

- **Ashley Volz** will demonstrate the use and show data collected with cameras on pig trapping equipment which is available to be loaned out free of charge to landholders.
- **Toowoomba Regional Council Pest Management Officer** will speak on feral animals and support offered.

**Book now with:**  
**Glenys or Davida**  
**0428751070 or 46967044**  
**E: glenysbowtell@bigpond.com**

Facilitated by:  
**Roxane Blackley**  
**Queensland Murray Darling Committee**  
**Mapping Team**

**FREE**

**MORNING TEA & LUNCH PROVIDED**  
**RSVP by Monday, June 3rd, 2017**

**Funding provided by Toowoomba Regional Council** through their  
Community Grants Scheme
