

Everyone's Environment Grant

“Building resilient farm landscapes in the North East Darling Downs Region”

Funding source- Queensland Government -Department of Environment and Heritage Protection

Our farms are our backyards so by restoring farms we are cleaning up “our back yards.”

Landholders in the North East Downs area will be helped build resilient landscapes by erecting 11 kilometres of riparian fencing, installing 6 of stream watering points and spraying chemicals to control and reduce the spread of environmental weeds on 600 hectares of land.

The project was completed in January 2014
