

Oakey Urban Landcare Group

Environmental Grant Received from Toowoomba Regional Council in October 2017

This grant for \$1490 was to increase native vegetation and habitat in the Tyrell Street Reserve, Oakey and reduce creek bank erosion as well as sediment in the creek.

Brookvale Park was engaged to grow 100 native trees for this planting, and sleeves , stakes and fertilizer were purchased.

In April 2018 the soil was prepared for planting but the weather was too dry to plant.

After watering in July 2018 , trees were planted with the assistance of Oakey Urban volunteers and Girl Guides. A community BBQ was held for the volunteers.

The planting took place at Tyrell Street Reserve Oakey on the 7th July 2018
